

HAZELMERE MEDICAL CENTRE

Dr H J Watson, Dr O Jan & Dr P Furber

STATEMENT OF INTENT

This statement is a commitment of intent to plan for the introduction of the following facilities to be available to our patients by 31 March 2015. These facilities are an important step in expanding our patients involvement in their own care and improving accessibility of information.

Referral Management

Since April 2014 all NHS clinical correspondence generated by the practice has included NHS numbers, ensuring efficient and accurate patient identification.

Electronic Appointment Booking

Since May 2011 we have provided an electronic system and encouraged its use.

Online Repeat Prescription Ordering

Since May 2011 we have provided an electronic system and encouraged its use.

Interoperable Records

Summary Care Records

Since May 2014 we have been enabling successful uploads of changes to patients Summary Care Records (SCR) on a daily basis, this ensures that your medical record summary is updated daily.

GP2GP

We are planning to utilise the GP2GP facility in August 2014. This will enable transfer of your medical records between practices when you register or de register.

Access to Medical Records

We will by March 2015, utilise the facility for you to view online, export or print any summary information from your records relating to medications, allergies, adverse reactions and any other items agreed between you and the GP.
